

# The big wins from digital transformation

Reimagine your operations for competitive advantage through digitisation

## Advantages for Financials

SaaS lets you unlock Ci Anywhere for:

- Automatic invoice processing – eliminating manual data entry
- Expense management – from submission to approval
- Business analytics – real-time data via visual dashboards
- Source to pay – seamless procurement processes

*"[SaaS] enables us to accelerate the ongoing digitisation of our services, making full use of Ci Anywhere, and to grow our global marketplace."*

**Michele Poepjes**

Director Business Operations and Student Systems  
Curtin University

## Streamlined business processes

Available only in SaaS:

- Action workflows from emails
- Run and share reports from any device
- Automate reporting from playlists
- View and action your tasks

## Reduced complexity

Integrated ERP on a SaaS platform lets you and your IT team focus on service delivery and outcomes:

- Removes data silos
- Simplifies user interface
- Reduces number of systems
- Creates a single source of truth

## OpEx vs CapEx

A cost-effective pay-as-you-go SaaS arrangement:

- No upfront sums for software or IT infrastructure
- Predictable, easy to manage expenses
- Annualise fees as operational expenses to claim tax deductions

## Lower TCO

Significantly lower total cost of ownership through:

- Reducing on-premise infrastructure
- Simplifying licensing models
- Freeing IT resources for innovation and more productive tasks

## Save three ways

01

### Software licensing

- More flexibility – pay to suit your cash flows
- Easier to budget and avoid overruns

02

### IT infrastructure

- No need to buy or add servers or storage
- Leverage economies of scale in the cloud

03

### On-premise costs

- Eliminate IT management and operation costs
- Reduce security overheads
- 24/7 technical support

*"We have seen a massive improvement in speed and connectivity. SaaS also put us in a position to open up further online services to the community."*

**Sarelle Sinclair**

Senior Business Services Officer  
Tablelands Regional Council

01

**\$20-\$50**

Saving per digitised simple transaction\*

02

**\$90-\$350**

Saving per digitised complex transaction\*

**Reduced operational costs**

03

**12-25%**

Cost-of-service savings\*

04

**2.5 FTE**

IT resources you can reallocate\*

## Improved performance

**99.5%**

availability and resilience with scalability for higher processing demands

## Greater security

**IRAP**

PROTECTED assessed SaaS provider with automated back-ups and disaster recovery
